**Irin Jose** received the B.Tech. degree in Electrical and Electronics Engineering from the National Institute of Technology, Tiruchirappalli, India, and an M.S. degree in Electrical and Computer Engineering from the University of Illinois Urbana-Champaign, USA. She is currently pursuing an online M.S. degree in Computer Science with a specialization in Artificial Intelligence at the Georgia Institute of Technology, Atlanta, GA, USA. She has approximately nine years of industry experience in electric vehicle powertrain engineering, with a focus on motor control and powertrain systems. Her interests include electric vehicle systems, motor control, physics-based and data-driven modeling, machine learning, and intelligent systems.
