ICRERA 2026
15th INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY RESEARCH AND APPLICATIONS

Jongmin Park

Senior Researcher, KEPCO Engineering & Construction Company (KEPCO E&C),
Republic of Korea

Biography

Jongmin Park received his M.S. degree in Plant Engineering from Hanyang University, Republic of Korea. He is currently a Senior Researcher at KEPCO Engineering & Construction Company (KEPCO E&C). He has extensive experience in process engineering, process simulation, and system analysis for energy and hydrogen production systems. His current research interests include integrated energy systems combining nuclear and renewable energy, hydrogen production through water electrolysis, dynamic process simulation, and techno-economic analysis.
